

## Wholesale Order Information Sheet

***Wholesale pricing applies to an initial order of 4 or more costumes of the same style (ie small group/troupe) and any additional orders placed by studios during the next two years.***

Edgy and affordable, our costumes are made from high quality lycra, lace, mesh and sequined fabrics and also feature hand sequinning, motifs, jewels and diamantes and all of our unique designs are copyrighted to Costume Glitz.

Our costumes are designed in Australia and manufactured in our factory in Indonesia and catalogue designs can be made in your choice of colour combinations (chosen from our vast range of fabrics). We also offer a custom design service for group orders (minimum 15 dancers per style).

We recommend placing your orders well ahead of planned performance dates and always allow a minimum of 10 weeks for delivery for catalogue orders. Please email your wish list including sketches, photos, colours etc to [info@costumeglitz.com.au](mailto:info@costumeglitz.com.au) for a quote and always allow 12 weeks for custom orders.

### **End Of Year Concert Orders**

Please confirm your 'end of year' concert costume requirements as early as possible. Please email a summary of what your order may look like (genre, age, approximate numbers initially) to secure your placement in our production queue and to ensure delivery to you well ahead of your scheduled rehearsals etc.

### **Ordering**

Please complete, save and send (or print out, complete, scan and send) an **order form** and email to [info@costumeglitz.com.au](mailto:info@costumeglitz.com.au)

Once your order is accepted and your delivery time line is confirmed, we will send you an invoice and require a 50% deposit before we commence your order process.

### **Sizing**

Please measure each dancer (prior to confirming your orders) – see below - then refer to our [sizing guide](#) to choose sizes:-

Chest – around the nipple please

Waist – smallest part

Hips – around the biggest part of the bottom (low hip)

Girth –place tape on top of shoulder, take down the front and through the legs and back up to meet the tape on the top of the shoulder (ie form one loop with the tape to measure the body length)
